Tips for better portraits

1. CLOTHING ~ The outfits you select are a big part of the success of your portraits. Make sure all outfits coordinate and fit the mood of the portrait you are trying to achieve.
2. GLASSES ~ Glass glare is a very serious problem. We recommend removing your lenses or borrowing a pair of empty frames from your doctor.

WE CHARGE FOR REMOVING GLASS GLARE.

Pose Selection Charge

A charge of \$7 is made for each pose ordered from to cover handling, negative preparation and normal retouching. Artwork to correct problem areas (stray hair, braces, excessive facial blemishes, etc.) can be done at additional cost. Your portraits are coated with a lacquer finish to preserve and protect.

Eye glass glare removed at your expense.
